# Miraco's MiraFount Exclusive training device helps cattle find water fast!

Use the trainer bolt to hold the ball back out of the hole.

### Features for all models:

- No sharp edges for safety
- Durable polyethylene construction stands up to livestock abuse – resists corrosion, chipping or cracking

### BIGspring / Lil'Spring / MiraFount (Beef & Cattle) features:

- 5 year warranty
- 2" to 3" (5 cm to 8 cm) urethane foam insulation
- Molded base unit anchors (stainless steel anchor bolts included)
- Sloped, sealed bottoms for easier cleaning

### Lil'Spring features:

 Removable dome for quick and easy access to valve area

### MiraFount (Beef & Cattle) features:

- Extra insulation above the valve area
- Minimum head required
- Patented Miraco roll-away ball closures

### **MiraFount (Swine) features:**

- Patented underside lid seal for energy-free watering
- Easy access to valve area
- Low profile drinking height profile for small pigs
- Large 10" (25cm) openings to accommodate market hogs and sows
- Seamless sidewall construction
- Stainless steel anchors and stainless steel bolts

### **EQUIFount features:**

- Urethane foam insulation
- Minimum intrusion on stall space
- Four bolt installation
- Plumb from above or below
- Ample drinking space; plentiful water supply with minimal waste
- Large easy drain; no disassembly required
- Attractive design; several color options

### **E-Founts features:**

- Most economical electric heat waterers available today
- All equipped with a 75 watt heat element and thermostat
- Only requires 4 kilowatts of electricity during a week of -25° F temperatures

## ENERGY EFFICIENT WATERERS E

### **SWINE**

E-Founts are the most economical electric heat waterers available today.

3410-E

All E-Founts are equipped with a 75 watt heat element and thermostat.

E-Founts only require 4 kilowatts of electricity during a week of -25° F temperatures.

## **ENERGY FREE WATERERS**

### **BEEF & DAIRY CATTLE**

Cattle love the roll-away ball feature. Nothing in their face while drinking, unlike the competition's design where they have the disc constantly in their face.

Removable top end panels help get new cattle started fast or when you need more capacity for a few extra head.

### **OPEN WATERERS**

1100 Corner **Mount** 

### **New Color Options** Gray Blue(Standard) Black Hunter Green 🔲 Beige 📕 Red

1200 Wall Mount

## QUIFount

### **EQUINE**

### 834-5 Insulated **Extension** Tube

**Insulated tube allows** water line to enter from below without freezer.

Rubber plug can be removed for access to water shut off valve

### **EQUINE / MULTI-PURPOSE**

200 psi hose w/shut off valve included

3" front drain outlet for outside use

# Spring Multi-Purpose Waterers

### **General Livestock**

- Large access panel for easy access to valve area
- 3" offset drain
- Access panels at both ends
- Installs easily on most existing concrete pads
- Spring load clips allow entry to valve area no wrenches required
- Constant flow available

- 168" drinking space
- Quick release valve cover
- Diagonal valve compartment lets more cattle drink
- 24" hook-up hose with shut off valve
- 2 bottom drains

Top view: Diagonal valve compartment lets more cattle drink.

### **OPEN WATERERS**

### **BEEF & DAIRY CATTLE**

**Big Spring Miraco waterers** 

- 6100
- Bottom drain available on all
- Removable dome for easy access to valve area

• Water spray for attracting new cattle for water

• 3" drain hole with rubber plug for rapid cleaning

- Spring-loaded clips no wrenches required
- End Panel access
- Can be constant flow at 30 or 60 gallon level

- Flat back design fits flush with wall
- Center between stalls or place one on each end of single stalls
- Pour foundation with a curve for easier cleaning
- No wrenches required for valve compartment access
- Rubber gasket for airtight dome seal

For cleaner water, neckrail required to prevent cattle from standing in the water. 10"-12" stem wall recommended.

### **ACCESSORIES**

### 834 INSULATED **HEAT TUBES**

Highly insulated tube shields incoming ground water from cold as it passes through the frost level.

Polyethylene construction ensures years of trouble-free use. One 30-inch tube and 3 feet of 12-inch plastic drainage tile provides a sufficient heat well in most locations. For northern locations, two 30-inch heat tubes may be required.

#### **Outside Dimensions**

14" X 30" (36 x 76 cm) 2" Insulation (5 cm)

#### Weight

18 pounds (8 kg)

### **AUTOMATIC VALVES**

Part No. GPM Pressure #336 (Black) 14 Low 5-40 psi #521 (Red) 12.5 High 40 – 80 psi #519 (Blue) 6 High 80 - 90 psi

#### **HEATERS** 1 year warranty

Available in 120 Volt or 240 Volt 250 Watts and 500 Watts

HighLimit safety fuse

Teflon coated aluminum

New thermostat technology

> Design allows heater to set 1/2" above the bottom for better heat dispersion.

Part No.

#543 with built-in thermostat

250 Watt Immersion Heater

#543-5 500 Watt Immersion Heater

(110 Volt or 220 Volt)

Part No. Thermostat Controlled

#919-5 Cable Line Heater

(110 Volt or 220 Volt)
